

The Northeast Missouri Rural Health Network

Is pleased to present

Delirium, Dementia and the Clinical Presentation of Late-Life Depression - Introducing ElderLynk's Healthy IDEAS Program

Tuesday, November 15, 2011

**Adair County Annex Building
300 N. Franklin, Kirksville, MO**

8:30—11:00 a.m.

Registration begins at 8:00 a.m.

Target Audience

Certified Nursing Assistants, Licensed Practical Nurses, Registered Nurses, Nursing Home Administrators and other professionals that work with the aging population

Learning Objective

At the conclusion of this program, participants will be able to:

- Identify the clinical presentation of late-life depression versus delirium and dementia;
- List observations that must be reported to the physician, APRN, or to the supervising staff;
- Use case examples to practice communication of objective assessment data to appropriate sources; and,
- Understand the application of an evidence-based model, Healthy IDEAS, for the development of client self-management skills for the treatment of depressive symptoms.

Meet the Speakers

Andrew Lovy, DO, F.A.C.N.

Dr. Lovy is a graduate of the Chicago College of Osteopathic Medicine. He is board certified by the American Osteopathic Board of Neurology and Psychiatry, the American Academy of Pain Management, and is a Diplomat of the American Board of Forensic Medicine.

Dr. Lovy conducts on-site psychiatric consultation and management for residents of eleven long-term care facilities in the northeast Missouri region, as well as the psychiatric supervision of two area nurse practitioners. Dr. Lovy's experience spans nearly 40 years in the field of psychiatry as a physician, educator and published author.

Bridget Morton, RN-BC

ElderLynk Project Coordinator and Case Manager

As the care coordinator of ElderLynk, Bridget provides long-term care psychiatric services in collaboration with Dr. Lovy. Bridget received her RN degree from Moberly Area Community College in 1994 and is a Certified Psychiatric and Mental Health Nurse.

This program is brought to you by:

Funding for this project was provided in part by the
Missouri Foundation for Health

*a philanthropic organization whose vision is to
improve the health of the people in the communities it
serves.*
